

THE ROMAN CATHOLIC DIOCESE OF ROCKVILLE CENTRE

Rockville Centre, New York

HE2PD has performed work for the Diocese of Rockville Centre on a continuing basis. The firm was commissioned as an “expert in the field” to verify conceptual budgets and to assist the Diocese in its evaluation of potential Construction projects at the Our Lady of Lourdes Church in Malverne, NY and the Sacred Heart RC Church in North Merrick, NY. Activities included the preparation of new estimates for each project, the development of comparative analyses with previously budgeted amounts, and the final recommendation of alternate systems and value engineering concepts at both locations. Our firm was retained to provide oversight of the repair of an elevator failure in Carle Place, NY, including both insurance and litigation support services.

Additionally, HE2PD was retained as Owners’ Representative for the full renovation of the Our Lady of Victory RC Church. Phase I of this project was completed in June, 2011 and consisted of a newly constructed Narthex and Bell Tower. Phase II is now completed and included the demolition of the existing garage and various areas of the Church, the creation of a west transept, an extension of the southern exposure to include expanded altar space, construction of a new garage, and various architectural finishes. New and refurbished stained glass windows are completed, along with the installation of new pews. The project also includes the creation of a new mechanical room, and the installation of new high efficiency boiler, air-conditioning, and fire-suppression systems.
