

EXPERIENCE

THE ROMAN CATHOLIC DIOCESE OF ROCKVILLE CENTRE

St. Agnes Cathedral (Interior), Rockville Centre, New York

HE²PD, Inc. was commissioned as the Program Manager to complete the full renovation of the Cathedral, as part of the continuing work our firm performed for the Diocese of Rockville Centre. Aside from the renovations, HE²PD managed the budgets, the overall scope of the project, created estimates and the assembly of all the documents and systems at the location.

The renovations to the interior of the church included the restoration and refinishing of the pews, painting of the walls and ceilings, new flooring, and new lighting. HE²PD, Inc. also played an integral part in the ordering and assembly of the liturgical pieces that came from Italy, as well as, helping to assemble all of the intricately detailed marble work to create the sanctuary.
